

MyData, Hackathon

OP Bank

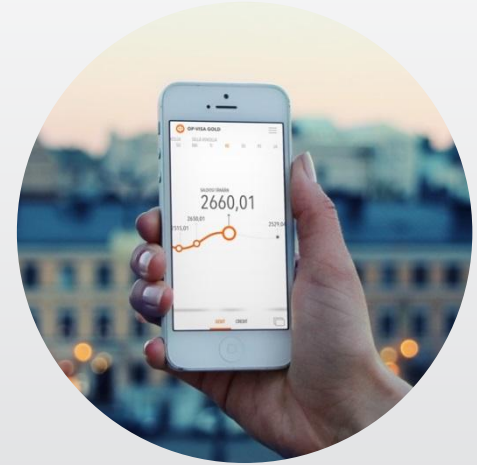

OP in brief

About 1 500 000 "owner" customers

About 180 banks

Digital finance group

API Management Roles

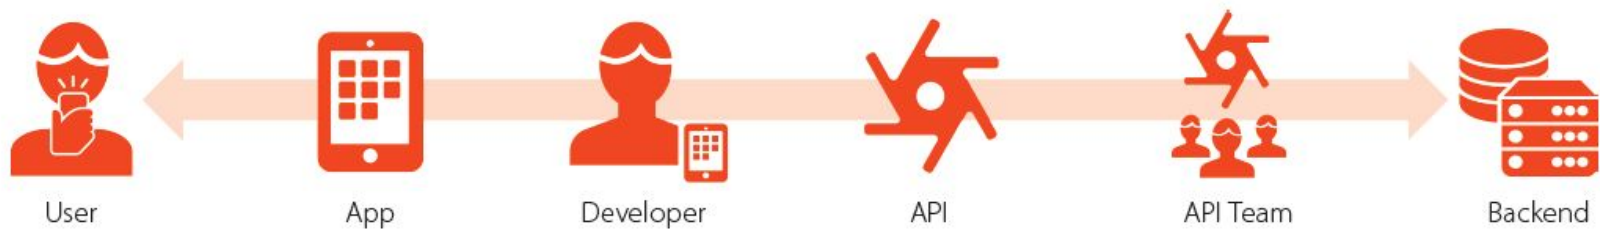

Figure 1: APIs at the heart of the digital value chain

© Apigee Corp.

PSD2 requirements

- Mandatory for banks to implement:
 - Account Information Services (AIS)
 - Payment Initiation Services (PIS)
 - Strong Customer Authentication (SCA)
 - Testing facilities for TPP
- Possible additional targets:
 - Extended services
 - Partner interfaces
 - Open Banking Platform

All this causes a huge disruption in the Banking and Financing

Why hackathon?

- To accelerate the innovation
- To get a better understanding what kind of APIs OP should develop
- To get feedback of the current API usability and relevance
